**RE: Moores Pit, File No. M-1980-178 , Technical Revision (TR-2) Adequacy Review**

Dear Mr. Moores:

On January 29, 2024, the Division of Reclamation, Mining and Safety (Division) filled your Technical Revision request TR-2 for the Moores Pit, Permit No. **M-1980-178**.

During previous discussions with the Division, it was indicated that the scale and scale house would remain as a permanent feature post-mining as they are also used for agricultural purposes. The TR Request did not include verbiage indicating that was a desire. If this change is not made at this time and the scale and scale house is to remain, a separate request will need to be made at a later date. Please clarify if this change is being made under TR-4 by **Monday, March 25, 2024**. If no response is provided the Division will continue to bond for the removal of this feature.

If you require additional information, or have questions or concerns, please feel free to contact me. Amy Yeldell at the Division of Reclamation, Mining and Safety, Room 215, 1001 E 62<sup>nd</sup> Ave Denver, CO 80216. Direct contact can be made by phone at 970-210-1272 or via email at amy.yeldell@state.co.us

Sincerely,

**Amy Yeldell**
