

Summit Brick and Tile Co.
Permit #M-1977-324
February 16, 2024

Stocks Clay Mine
2024 Annual Report
Supplemental Notes

Notes:

Items #8-12 and Map: Summit Brick is in the process of submitting a Technical Revision to clarify and update the phased mining plan for this clay pit. It also addresses the slight amount of disturbed area outside of the Phase 1 affected area boundary that is included in the Phase 2 affected area shown on the updated Exhibit C - Mining Map submitted as part of the Technical Revision. The Current Conditions map submitted with this annual report does not show these updated phasing and affected area boundaries as the Technical Revision has not been officially approved yet.

Item #19: The bond is being recalculated with the Technical Revision and will be updated once the bond review and recalculation is complete.
