To: Graham Roberts <graham.roberts@trappermine.com>, Robin Reilley - DNR <robin.reilley@state.co.us>

Good Morning Mr. Roberts,

Please find the Divisions' Review of the 2024 January DMRs for Trapper Mine. The DMR report included WET testing results. No concerns were noted.

Thank you

Robin Reilley, M.S. GISP  
Environmental Protection Specialist II

**Re: Trapper Mine (Permit No. C1981-010)**  
**Review of DMR's 2024 January**

Dear Mr. Roberts:

The Division has received and reviewed the January 2024 and the monthly Discharge Monitoring Reports (DMRs), including the acute WET testing results for the Trapper Mine. The DMRs were received electronically by the Division on 23 February 2024. Thank you for your timely submittal of this information. Trapper submits DMRs to the Division, in accordance with Rule 4.05.13(2)(a)(iii).

Trapper reported the following outfalls discharged in January.

- Johnson System Pond #10, NPDS 001
- No Name Pond #5 NPDES 002

Trapper reported that none of the outfalls requiring WET testing discharged. Monthly DMRs for discharging outfalls indicated that no parameters were exceeded.

The Division does not have any questions, concerns, or further comments at this time. If you have any questions or need additional information, please contact me.

Sincerely,

Robin Reilley, M.S. GISP  
Environmental Protection Specialist II
