**RE: Annual Reclamation Report 2023 (ARR)**  
**Seneca IIW Mine, Permit No. C1982057**

Dear Ms. Kawcak;

Thank you for the timely submission of the Seneca IIW Mine 2023 ARR. The Colorado Division of Reclamation, Mining and Safety has completed its review of the above referenced report and found it adequate. Please see the Division's findings below regarding the report's compliance with the following Rules.

- Rule 2.04.13(1) – The 2023 ARR is dated 14 February 2024 and the Division received an electronic copy of the report on 14 February 2024.
  - a. The name and address of the permittee is on the report form.
  - b. For the reporting year zero acres of lands were placed in the Acres Disturbed Category comprising backfill/grading, long term facilities and active mining areas. Active mining is not occurring at the site, and reclamation activities have been completed as permitted. Outstanding acres awaiting Phase I bond release comprise approximately 106.2 acres.
  - c. For the reporting year zero acres were reported to have been backfilled, graded, or topsoiled.
  - d. For the reporting year 10.41 acres were reported to have been subtracted from acres seeding of affected lands in the 9 years and less category. These acres were added to the 10 years and greater category.
  - e. A total of zero acres where bond released in 2023.
  - f. The operator conducted weed control activities throughout the site as summarized in the submitted weed spray logs for 2023.
  - g. Total acres disturbed comprise 1291.5. The sum of Backfilling and grading (1245.05), active mining (0), and acres in facilities (46.45), equal total acres disturbed (1291.5).

This concludes the Division's review of the 2023 ARR. The Division has no concerns. Sincerely,

Robin Reilley M.S. GISP
