RE: Una Pit, Permit No. M-1980-080, Inspection Problem Abated

Dear Mr. Doody:

On January 16, 2024 the Division of Reclamation, Mining and Safety (Division) conducted an inspection of the above referenced site. Hydrologic Balance was cited for improper storage and containment of fuels and/or other hazardous materials was present on site. Corrective actions required that you submit documentation that the improperly stored barrels be by the corrective action date.

On March 11, 2024 the Division received the documentation that the barrels were removed from site. This satisfies the corrective action and it is considered abated.

If you require additional information, or have questions or concerns, please feel free to contact me at the Division of Reclamation, Mining and Safety, 1313 Sherman St., Room 215, Denver, CO 80203, by phone at 720-688-0626 or by email at todd.jesse@state.co.us.

Sincerely,

Todd Jesse
