To: "Tennyson, Tony (Colowyo)" <ttennyson@tristategt.org>

Good afternoon Tony,

As discussed on the phone earlier today, attached is the Division's adequacy letter regarding TR-108 for the New Horizon Mine. Please feel free to contact me if you have any questions or concerns.

Sincerely,

Clayton Wein**Environmental Protection Specialist****COLORADO****Division of Reclamation,

**RE: New Horizon 2 Mine, Permit No. C-1981-008
Technical Revision No. 108 Preliminary Adequacy Review**

Dear Mr. Tennyson,

The Colorado Division of Reclamation, Mining and Safety (the Division) has received the New Horizon 2 Mine's submittal of required items for a technical revision on January 30, 2024. The information provided allowed the revision to be deemed complete on January 31, 2024. The Division has completed reviewing the application submittal and has the following adequacy question:

1. A part of Technical Revision No. 108 (TR-108) requested to reduce the New Horizon Mine's permit boundary to reflect the approval of Bond Release SL-26. SL-26 was approved on January 10, 2024 and Phase III released 1.80 acres. With the submittal of TR-108, several Maps were included with the proposed revised pages to reflect the request in the reduction of the mine permit boundary. Maps 2.04.10 (Baseline Vegetation Map) and 2.04.11-1 (Baseline Wildlife Map) were included with the updated permit boundary. An updated version of Map 2.04.9-1 (Baseline Soils Map) was not included with the application. Please provide the Division with an updated version of Map 2.04.9-1 that reflects the requested change in the Mine's permit boundary.

This concludes the Division's preliminary adequacy review for the New Horizon 2 Mine's Technical Revision No. 108 application. If you have any questions or concerns, please feel free to contact me.

Sincerely,

A handwritten signature in black ink that reads "Clayton Wein". The signature is written in a cursive, slightly slanted style.
