Good morning Jodi,

As a reminder, the decision date for the TR8 for this permit is March 17, 2024, which is this Sunday. If more time is needed to address the adequacy issues and for the Division to review the responses, please send a request to extend the decision date.

Thanks,
Jocelyn

RE: Pueblo East Pit, M2000-041 TR8 Adequacy Review

Jocelyn,

Please see the attached, updated Phase Plan map showing that the Topsoil and Overburden Stockpiles will be used to reclaim Phase IIB and IIC and will not remain.

The only update to the mining plan is to remove the overburden from Phase IID. This will be done at a 3H:1V slope. Knowing this, the only increase in reclamation cost will be for seeding and topsoiling of the 52 acres. Below was the cost estimate for TR-06:

ARY CORPORATION

A&S Construction Co.
Fremont Paving and Redi-Mix, Inc.
Ary Brothers Trucking, Inc.
All-Rite Paving & Redi-Mix, Inc.
Hard Rock Paving and Redi-Mix, Inc.

With these numbers, 88.12 acres would cost \$230,812 for such reclamation, less the open water backfill. Calculating based on this estimate, \$156,816 would be needed to topsoil and reseed 88.12 acres (approximately \$1,780 per acre). Since the overburden from Phase IID would disturb 52 acres, the updated cost for reclamation would be \$92,564.68. All other mining operations would remain the same. Phase

Please let me know if any further information is needed to review this TR08 request.

Thank you,

Jodi Schreiber
