RE: Line Camp Pit, Permit M-2001-001, Incomplete Application for Transfer of Mineral Permit and Succession of Operators, SO-3

Dear Mr. Barton:

On March 11, 2024 the Division of Reclamation, Mining and Safety received the Application Form for Transfer of Mineral Permit and Succession of Operators from Stone Sand & Gravel LLC to Smith's Materials, LLC, for the Line Camp Pit, Permit M-2001-001. The following items are incomplete for the application to be processed:

Structure Agreement

1. Please include Structure Agreement(s) for all permanent man-made structures located within 200 ft. of the affected lands pursuant to Rule 6.4.19. Structure agreements were received from CDOT and Empire Electric. However, Exhibit S of the permit also lists Century Telephone of CO as the owner of a telephone line within 200 ft of the affected lands and D. Truelsen as owner of a water ditch with 200 ft. Please provide Structure Agreement(s) for all structures within 200ft of affected lands.

Legal Right to Enter

1. Per Rule 6.4.14 please provide a lease, deed, abstract of title, current tax receipt, or a signed statement by the Landowner and acknowledged by a Notary Public stating that the Applicant has legal right to enter to conduct mining and reclamation. Unfortunately, the screen shot of the county assessor map available online is not accepted by the rules.

Please return the required documentation to the Division **before May 10, 2024**. All completed permit documents are required to be submitted for consideration of your Request for Transfer of Mineral Permit and Succession of Operators Application. An incomplete application may be denied after the 60 day submittal request, if requested documents or information are not received. In the event of any delay in your submittal or if you have any questions, please contact me directly at the Division's Grand Junction Field Office, by phone at 720-688-0626 or by email at todd.jesse@state.co.us.

Sincerely,

Todd Jesse
