Hi Ms. Ridley,

I appreciate the reminder.

I've attached the engineering analysis provided by Engineering Analytics.

I request a 30-day extension to Western Equipment and Truck Mine #1, File Number M-2023-042, to allow the Division of Reclamation, Mining, And Safety ample time to review and decide on the application.

Please let me know if any additional information is needed. Thank you for your assistance.

Best regards,

**Richard**

Good afternoon Mr. Miller,

This is a courtesy reminder that the decision due date for the Western Equipment & Truck Mine #1 is this Wednesday, March 20th. Since I haven't yet received the engineering analysis and I will be out on inspections for a portion of this week, you will need to request an extension to the due date to give ample time for review and approval. This can be sent directly to me via email. Our standard is to begin with a 30 day extension.

Many thanks,
