***RE: REX Property, NOI # P-2022-019 , NOI Modification (MD01) Application Adequacy Review***

Mr. Blakestead:

The Division of Reclamation, Mining and Safety (Division) concluded its review of this application on September 5, 2023 and requested BLM concurrence with the proposed financial warranty requirement. On October 2, 2023 the BLM notified the Division that the modification application was considered incomplete by their agency and that BLM was therefore unable to concur with the proposed financial warranty requirement.

Rule 5.1.2 (d)(vi) requires Prospectors to provide documentation of their legal right to enter the proposed affected area to conduct prospecting and reclamation. BLM authorization of the project would be required to satisfy this requirement.

Within 60 days, please submit documentation to demonstrate the legal right of entry for this project. Pursuant to Rule 5.1.3 (c), if the required documentation is not received the Division may terminate the MD01 application.

If you require additional information, or have questions or concerns, please contact me.

Sincerely,

A handwritten signature in blue ink, appearing to read "Dustin Czaplá", is written over a light blue horizontal line.
