Hi, Patrick -

We received the responses to the DRMS Preliminary Adequacy Review for the Bernhardt Sand and Gravel Pit (Bernhardt) application on April 8, 2024. You can find the files in Laserfiche.

I am requesting your assistance with the groundwater portion of the application and responses.

Please submit a memorandum to me by April 26, 2024, if possible. If you need more time, please let me know. Please do not hesitate to contact me with questions about the application. If necessary, I can put you in contact with the applicant and/or his consultant.

Many thanks,
Rob
