

Interoffice Memorandum

To: Zach Trujillo
From: Rob Zuber *RZ*
Cc: Amy Eschberger
Date: April 15, 2024
Subject: Application for Bernhardt Sand and Gravel Pit (M-2023-025),
Request for assistance with geotechnical review and response to PAR

Hi, Zach -

We received the responses to the DRMS Preliminary Adequacy Review for the Bernhardt Sand and Gravel Pit (Bernhardt) application on April 8, 2024. You can find the files in Laserfiche. I can help guide you to the portions that relate to geotechnical engineering, if necessary.

I am requesting your assistance with the geotechnical portion of the response to Tim Cazier's initial adequacy items.

Please submit a memorandum to me by April 26, 2024, if possible. If you need more time, please let me know. I suspect that we will be requesting another extension. Also, do not hesitate to contact me with questions about the application. If necessary, I can put you in contact with the applicant and/or his consultant.

Many thanks,
Rob
