Amy,

In response to your request for additional information regarding M-2024-013

All the property is privately owned by Canyon Court, LLC

No public roads will be used or crossed to transport the material to its destination.

Approximately 2' of topsoil will be removed and stored onsite; in addition approximately 4 ½' of material will be removed then the topsoil will be replaced and the area will be prepared for future expansion.

Please see attached map:

- The dark purple line is a privately owned road which will be constructed as part of the expansion of the trailer park.
- The area shaded in red is the extraction area which will ultimately be used as trailer park expansion.
- The area shaded in yellow is where extracted material will be used for roads and pad levelling
- The thin black line is the property boundary

Let me know if you need additional information.

Thanks,

Andy
