Hi Wyatt.

Please see the attached corrected Notice of Complete Application for Technical Revision 7 (TR7). This corrected notice clarifies the information in the permit record and states that TR7 is the submittal of a revised reclamation plan, SEO liner recertification, and the flood control and mitigation plan and drawings requested by the Division after the 2015 flood.

We are reviewing the information and will reach out to you in a separate email if we have any adequacy questions on this revision.

Kind regards,
