

**April 18, 2024**

**ANNUAL EXPLORATION & RECLAMATION REPORT**  
**April 22, 2023 – April 22, 2024**

Prospect NOI No.: P-2010-007 MD-4  
Prospect Site Name: North Amethyst Project  
Operator/Prospector: Randy McClure  
Rio Grande Silver, Inc.  
625 USFS Road 504.1A  
P.O. Box 610  
Creede, Colorado 81130  
Tel. (970) 317-5355

**EXPLORATION**

No exploration work was conducted on the North Amethyst Project NOI in 2023.

Rio Grande Silver submitted a Modification to this NOI on November 9, 2023 to expand the exploration area to the West into Rat Creek for future exploration core drilling. The Modification was approved on January 18, 2024

**RECLAMATION**

In July and August of 2017, five drill pads and access roads were reclaimed totaling 2.14 acres. Disturbed material was placed to pre-disturbance topography and topsoil was spread on the fill. Slash and cut trees were scattered over the topsoil. Seeding with the approved seed mix was conducted with a handheld broadcaster in October 2017 prior to the first winter snows. This concludes reclamation for all previous disturbance on the North Amethyst Project, P-2010-007. Seed growth will be monitored, and re-seeding will occur if needed.
