Denver, CO 80216

*RE: Bernhardt Sand and Gravel Pit, File No. M-2023-025,  
Decision Date Extension Request*

Dear Mr. Zuber,

W.W. Clyde & Co. has received the Division's Second Adequacy Review dated April 17, 2024. We also received the Notice of Objections from the Division on November 13, 2023.

We are continuing to work with objectors to address their comments and concerns as well as finishing our response letters with updated exhibits for the adequacy review comments we would request that the decision date of April 30, 2024 be extended.

To provide time for the Division to review our comment responses, we would request to extend the decision date to June 7, 2024.

Sincerely,

J.C. York, P.E.
