Hi Sam,

Thank you again for addressing all of the concerns in the inspection report in such a timely fashion. Per our phone conversation, we will not require the gps/coordinates at this time, but as a reminder, mining any further north or east is not advised. The Division considers the inspection problems cited in the Division's Inspection Report for the January 11, 2024 inspection of the Keeling Pit, **abated**.

Have a great day,
