Good morning -

Can one of you request an extension on TR-03? I do not foresee more adequacy iterations, but I need more time on the cost estimate. I want to get that done in the next week or so, and then get feedback from you.

I think an extra two weeks would be good, so please ask for an extension from 5/10/2024 to 5/24/2024. It should not take that long, but a little extra time is prudent, I think.

Thanks,
Rob

Good morning, Rob.

Please extend the decision date for TR3(M2015033) to 5/24/2024. If we can answer any questions in the meantime, please let us know.

Thank you,

--garrett varra

Rob,

This puts me at least in uncharted territory. The annual report date for M2015033 is May 18 (so we plan to submit May 17 at latest as May 18 is a Saturday). I've never worked on an amendment or revision that spanned the annual report date.

Should the report and map

- reflect the existing approved permit - so following on from last years map, OR
- reflect changes in detail and on map per pending TR

Regards,

Peter Christensen (he/him/his)

Good question, Peter. You can make the map reflect the existing approved conditions. Next year you can incorporate this TR.

Rob
