Hi Richard,

I wanted to reach out about the Bijou Clay mine weeds corrective action. I know it was cited a while back and we pushed it back to the next year when new weeds started sprouting. The deadline is coming up soon, May 15. Please let me know where you are on this matter and if you need an extension.

Hello,

Please grant us an extension as I have been unable to get a contractor out there over the last few weeks. I was at the site mid April and the erosion controls were still in place though I didn't see any evidence of new growth.

Thanks,

Richard Murphy  
Exploration Manager

Thanks for getting back to me on this. Can you provide me with a new deadline you'd like to request? Usually, I can extend up to 30 days past the original deadline, so June 14. If you require more time than that, please explain why it would take more than 30 extra days so I can determine if that would be an appropriate amount of time to extend.

Thanks,

Joel
