DETERMINATION OF REQUIRED FINANCIAL GUARANTEE AMOUNT

The Sunrise Minerals Notice modification to conduct additional exploration drilling in T47N, R17W, Sections 2, 10, and 11 was received in this office on 7/25/2023. The Notice is to add 18 new drill holes to the project which covers approximately 3.82 acres. Additional information was requested on 8/8/2023. Additional information was received on 4/18/2024. The Notice has been assigned Bureau of Land Management (BLM) case file number COC080843. Please refer to this number in any future communication concerning this project.

The BLM has reviewed the Notice and determined it is complete, containing all the information required by the surface management regulation at 43 CFR §3809.301. The BLM has reviewed the proposed operation and determined is adequate to prevent unnecessary or undue degradation as defined by 43 CFR §3809.5.

Amount of Financial Guarantee – This office has received Sunrise Minerals reclamation cost estimate for this project and determined that the amount \$35,809 is sufficient to meet all anticipated reclamation requirements. The amount of reclamation cost estimate is based on the operator complying with all applicable operating and reclamation requirements as outlined in the Notice and the regulation at 43 CFR §3809.420.

Line items in the approved reclamation cost estimate are not to be considered as the limits of the reclamation expenditures should forfeiture of the financial guarantee be necessary. This amount may be spent as the BLM deems necessary to implement the approved reclamation plan. The financial guarantee amount does not represent reclamation liability limits or constraints should be actual cost of reclamation exceed this amount.

Required Financial Guarantee – The financial guarantee in the amount of \$35,809 must be submitted to and accepted by Colorado Division of Reclamation, Mining, and Safety (DRMS). You must receive

written notification from DRMS accepting and obligating your financial guarantee before you begin any surface-disturbing operations.

The type of instruments that are acceptable to the BLM for financial guarantees are found at 43 CFR §3809.555. Please contact DRMS for forms and further information regarding acceptable financial guarantees.

The BLM's review of your proposed operations, determination that your Notice is complete, finding that the activity will not cause unnecessary or undue degradation, and decision concerning the amount of the required financial guarantee does not relieve you, the operator, of the responsibility to comply with all applicable Federal, state, and local laws, regulations, and permits requirements. You are responsible for preventing any unnecessary or undue degradation and for reclaiming all lands disturbed by your operations.

This decision does not constitute certification of ownership to any entity named in the Notice, recognition of the validity of any associated mining claims, or recognition of the economic feasibility of the proposed operations.

Term of Notice – Your notice will remain in effect for two years from the date of this decision, unless you notify this office beforehand that operations have ceased and reclamation is complete. If you wish to conduct operation for another 2 years after the expiration date of your Notice you must notify this office in writing on or before the expiration date as required by 43 CFR §3809.333. You will also have to submit an updated reclamation cost estimate at the time.
