

Interoffice Memorandum

To: Vegetation Task Force
From: Rob Zuber *RZ*
Date: May 16, 2024
Subject: Review of SL-12 for Keenesburg Strip Mine (C-1981-028)

We recently received an application for a Phase II and III bond release for the Keenesburg Strip Mine. The application is SL-12, and it can be found in Laserfiche in the C-1981-028 file. I want to request the help of the Vegetation Task Force with this review.

We have some time. The publications start this week, so I will not be able to call it complete for three or four weeks. However, I want to keep this application moving, and I want to know soon if Habitat Management (consultant for Coors Energy) performed the analysis correctly and accurately. I am setting a deadline of June 14, 2024 for an initial office review by the Vegetation Task Force. As necessary, this date can be extended.

Also, I request that additional review of the submittal be performed during the bond release inspection. I suspect that this inspection will be scheduled for late June or early July, but I need to coordinate with Coors Energy. I will be in touch on that.

Thank you,
Rob
