**Re: Letter of Groundwater Monitoring Compliance, 2023 Annual Groundwater Monitoring Report;
Knox Pit, Permit No. M-2017-036**

Dear Mr. Francher:

On February 8, 2024, the Division of Reclamation, Mining and Safety (Division/DRMS) received the 2023 Annual Groundwater Monitoring Report for the Knox Pit, M2017-036. Upon review of the submission the Division has no comments on the report. Please note with the approval of TR-2 groundwater monitoring is to occur on a semi-annual basis, samples are to be collected during the first and third quarters, and the results of the monitoring are to be submitted with the annual report each year. Additionally, the analyte list was reduced with the approval of TR-2 as well.

If you need additional information or have any questions, please contact me by telephone at **303-866-3567 x8114**, or by email at patrick.lennberg@state.co.us.

Sincerely,

Patrick Lennberg
Environmental Protection Specialist
