

**TO:** Amy Yeldell, Leigh Simmons  
**FROM:** Tim Strack  
**SUBJECT:** American Gypsum – Extension Request  
**DATE:** May 20, 2024

---

On March 12, 2024 a Multi Person Inspection took place at the Eagle-Gypsum Mine (Mine ID #: M-1984-041) with Amy Yeldell and Leigh Simmons. An inspection report was issued on March 25, 2024, and a corrective action was identified for the operator to submit a Technical Revision to clarify the current approved Mining and Reclamation Plans. The due date for this corrective action is listed as 5/24/2024.

American Gypsum requests to extend this due date to 6/21/2024.

American Gypsum has hired a consultant to assist with preparation of the Technical Revision. A call took place on 5/20/24 between representatives from American Gypsum, DRMS, BLM, and the consulting firm. A site survey is scheduled at the mine site for May 22, 2024, which will provide necessary measurement details to support the submitted Technical Revision. The consultant believes that they will be able to meet the extended deadline of 6/21/24.
