Re: Elk Creek Mine (C-1981-022)
MR-116, Initial Adequacy Review

Dear Mr. Smith,

The Division has completed an initial review of the materials submitted by Oxbow Mining, LLC. (OM) with the MR-116 application. Please review the following comments on the adequacy of the application and address the items in bold.

Rule 2.10.3 Maps and Plans, Specific Information Requirements

1. Although the methane destruction facility described in the MR-116 application is not considered a mine related facility, and will not be regulated by DRMS, its location is still required to be shown on a map, per Rule 2.10.3(e).

Please update Map 2.05-M1, Sheet 6 of 6 to mark and label the location of the new methane destruction facility.

Feel free to contact me by phone or email for clarification.
The decision due date for MR-116 is May 27, 2024.

Sincerely,

Leigh Simmons
Environmental Protection Specialist
