**RE: East Rigden Pit, Permit No. M-1979-097; Technical Revision for Construction of Poudre River Trail**

Dear Mr. Parker,

On May 21, 2024, the Division of Reclamation, Mining, and Safety (Division/DRMS) received the Technical Revision application (TR-8) to include the construction of the Poudre River Trail. The following adequacy issues need to be addressed prior to the Division issuing a decision.

1. The map submitted does not have preparer's signature in accordance with Rule 6.2.1(2)(b). The map also has a scale that is not in compliance with Rule 6.2.1(2)(e). Revise the map to include the preparer's signature and an appropriate scale.
2. Provide a revised Exhibit F – Reclamation Plan Map that meets all the requirements outlined in Rule 6.2.1(2) and Rule 6.4.6.

This concludes the preliminary adequacy review for the TR-8 application. The decision date is scheduled for **June 20, 2024**. If additional time is necessary to address the above issues, a request to extend the decision date must be submitted to the Division prior to the decision date.

If you have any questions or concerns, I can be reached by email at [Jocelyn.carter@state.co.us](mailto:Jocelyn.carter@state.co.us) or by phone at (720) 666-1065.

Sincerely,

Jocelyn Carter
