**Re: Additional Information Required, Annual Groundwater Level Data for 2023-2024,
Riverbend Operation, Permit No. M-2000-016**

Dear Ms. Mikulas:

On May 22, 2024, the Division of Reclamation, Mining and Safety (Division/DRMS) received your Annual Groundwater Level Data for 2023-2024 from the Riverbend Operation. After review of the submission the Division has an additional item that needs to be addressed or clarified.

1. The anniversary date for M2000-016 is March 26th of every year. The annual report, map, fee and associated groundwater data was submitted on May 22, 2024. The groundwater table only contains new data from March 2023 through December 2023. At the very least new groundwater data should be updated through March 2024, similar to data provided in previous year reports. Please update the groundwater data table with information through May 2024.

Please respond to these items within 30 days of the date on this letter, by **July 4, 2024**. The Division reserves the right to further supplement this document with additional items and details as necessary.

If you need additional information or have any questions, please contact me by email at patrick.lennberg@state.co.us.

Sincerely,

Patrick Lennberg
Environmental Protection Specialist
