RE: Wagner Pit, File No. M-2023-038, Newspaper Publication Error- New Publication Required

Dear Mr. Robertson

On June 3, 2024 The Division of Reclamation, Mining and Safety (Division) received your Proof of Publication for your Construction Materials Limited Impact (110) Reclamation Permit application. The Proof of Publication is from the Newspaper.

The publication is incorrect by stating that all written comments must be received by May 24, 2024, 2015. Per Rule 1.7.1(2)(c), in case of a 110 Limited Impact Permit Application, such written comments, protests and petitions for a hearing must be received by the Office not more than ten (10) calendar days after the last date of newspaper publication of notice, which should have been May 26, 2024. Given that that is a Sunday it rolls over to the next regular business day which would have been Tuesday May 28, 2024.

Rule 1.6.6 states when an error in notice occurs that the applicant shall be required to publish and mail new notice of application and that all applicable deadlines shall begin anew. Therefore, Twin Buttes Land Co, LLC. must re-publish the permit application notice giving the public the required ten (10) days to comment after the date of publication.

The current decision date for this application is June 16, 2024. Given that the new comment period would close after the decision date it must be extended. Please request an extension to the decision date to allow for the completion of the public comment period and notices to be received and processed by the Division.

The Division will continue to review the materials recently submitted. If you have any questions, please contact Amy Yeldell

Sincerely,

A handwritten signature in blue ink that reads "Amy Yeldell". The signature is written in a cursive, flowing style.
