

Prospecting / Exploration Annual Report

COLORADO
Division of Reclamation,
Mining and Safety
Department of Natural Resources

General Information

Disclaimer

Under the terms of your NOI and Colorado Statutes, you must submit Annual Fees and Annual Reports (including a map). You must pay the Annual Fee and submit an Annual Report each year until reclamation responsibility release is granted. The Annual Fee is not a renewal fee. The Fee and Report are for LAST YEAR'S mining and reclamation season, and MUST be paid even if your operation was inactive.

If you have requested reclamation responsibility release from the Division of Reclamation, Mining and Safety ("Division") but your permit is not released by the anniversary date listed below, the Annual Fee MUST be paid. If the permit is released before the anniversary date, then by Statute, it is not necessary to pay an Annual Fee or submit an Annual Report for that year.

Division records indicate the following fee is due for the following NOI(s) on or before the Anniversary date:

Select Permit Number *

Only Permit Numbers with currently due Annual Reports and Fees will be listed. If nothing appears in the dropdown box below, there are no annual fees or reports due for any of your permits.

P2022019

Select Anniversary Date *

05-16-2024

PLEASE REMEMBER TO CLICK "SUBMIT" AFTER YOU HAVE COMPLETED YOUR REPORT AND PAYMENT.

Please check the box indicating you have read and understand the terms of the Annual Report and Annual Fee *

Annual Report Questions

Information contained in this report is required and will be reviewed by the Division upon receipt and prior to the next compliance inspection of the site. If, while completing this report, you learn that your site is not in compliance with the rules and the act, it is advisable that the issues be rectified promptly to avoid possible enforcement action.

1. Is the affected area boundary clearly marked if you have an excavation or portal? *

☒ Yes ☐ No ☐ N/A

2. Is the site in final reclamation? *

☒ Yes ☐ No

Please note time limits related to completion of reclamation, Rule 3.1.3.

3. Please enter the date of last activity at the site (excavation, drilling, construction). Or, if activity has not yet begun, please indicate so. *

☐ No activity yet ☒ Yes, activity has begun 8/31/2023

4. What date did prospecting activity end, or what date is it expected to end? Rule 5.6.1(e). *

9/7/2027

For the following questions, please note that numeric values must include one decimal place, such as "0.0" for zero acres, or 10.2 instead of 10.23.

5. Number of acres currently affected (exploration+ incomplete reclamation). * (?)

1.0

6. Number of acres that were newly affected during the current report year. * (?)

1.0

7. Number of acres that were reclaimed during the current report year. * (?)

0.3

8. Estimated new acreage to be affected in the next report year. * (?)

3.8

9. Estimated acres to be reclaimed in the next report year. * (?)

4.8

10. Total acres in various stages of reclamation, since permitted exploration / prospecting activities began:

Total acres backfilled * (?)

0.3

Total acres graded * (?)

0.3

Total acres seeded with approved mix * (?)

0.0

Total acres fertilized with aproved fertilizer * (?)

0.0

Total acres with topsoil replaced * (?)

0.2

Topsoil replacement depth (in.) * (?)

2.0

Total acres mulched with approved mulch * (?)

0.0

Annual Report Questions

11. Is weed control being conducted in accordance with an approved Weed Control Plan? *

If "YES", indicate the weed species, control area, control type, application rate and treatment date on the report map.

☐ Yes ☐ No ☒ NA

12. Is adequate topsoil reserved for reclamation, based on your approved NOI? *

If "NO", please explain

☒ Yes ☐ No ☐ NA

13. Is the reserved topsoil vegetated/stabilized in accordance with Rule 3.1.9(1)? *

If "NO", please explain

☐ Yes ☒ No ☐ NA

Comment *

500 Characters MAX

Rod Blakestad, Site Manager, could not find a source of "West End" seed mix during 2023; accordingly, seeds native to the site were collected and spread in affected areas. A seed source has subsequently been located and affected areas will be reseeded with the West End mix in June-July 2024. Top soil replacement from stockpile and storm water stabilization was implemented in late July 2023.

14. If exploration/prospecting has exposed groundwater, is the site in compliance with the approved mining plan and Office of the State Engineer (Well Permit, S.W.S.P., and/or Permanent Augmentation Plan)? *

☐ Yes ☐ No ☒ NA

15. Are all hazardous materials stored within approved spill containment structures? *

☐ Yes ☐ No ☒ NA

16. Does your NOI reclamation plan or Environmental Protection Plan require you to submit monitoring information annually? *

☐ Yes ☐ No ☒ NA

17. As required by Rule 5.6(1)(g) confirm that the Financial Warranty is still in place and is adequate to fully reclaim the approved prospecting site disturbance(s). *

☒ Yes ☐ No ☐ NA

18. Please use the space below to describe as required by Rule 5.6(1)(c) any new prospecting activity that occurred during the preceding year, including the locations and number of new surface drill holes, mud pits, excavations, rock dumps, adits, shafts, trenches, pits, roads and structures. If applicable, you must also describe the measures taken to safeguard shafts, adits and other mine openings from unauthorized entry both during and after prospecting. Additional pages should be attached if needed.

Other than the drilling of three bore holes, there was no new prospecting activity by Sunrise Minerals Inc. within the NOI area of interest (other than non-invasive, non-ground disturbance activities, such as surface mapping, and rock chip sampling of outcrops. New "roads" include only short sections of trail (50 to 100 ft) needed to access drill sites from the existing access road (pre-1952 era). Drill water sumps were constructed at the edge of two drill pads, the third used the water sump of drill site #1. Both sump were reclaimed, as were the drainage pathways for storm water to and from the drill pads.

Main access road improvements were made for safety purposes and these remain in usable condition, with water bars, drainage controls, and improvements to storm water events implemented as needed. It is anticipated that access road improvements will be used in 2024 to complete abandonment of 2023 drilling sites and future exploration (see Addendum 1).
