Mr. Dye,

All approved permit documents associated with the Colowyo Mine (C-1981-019), including hydrology maps, can be found on the Division's public interface Laserfische located on the Division's website <https://drms.colorado.gov/data>. The following link is to the Laserfische user-guide on how to navigate permits and associated public documents within Laserfische. This document is provided in the DRMS website link I included earlier as well.

It is often helpful to filter through the documents using the DRMS Permit Index template and using the IBM Index Class Name dropdown of "Permit File". These instructions can also be found within the referenced user-guide. This will further filter to all documents associated with the Colowyo Mine permit which will include the information that you have inquired about.

Hi Zach,

I'm following up an email to Hunter regarding non-DWR ponds regulated by the DRMS at the Colowyo site (C1981019). I was able to identify around 22 ponds named in documents on the DRMS Laserfiche, however, the location of these ponds and the drawings and maps referenced in these documents are not readily available on the Laserfiche site. When you have a moment, please call me to discuss these pond locations. The best way to reach me is through my cell phone. My number is 303-868-4722. If those maps, drawing files, and/or GPS locations of these ponds are available, please email those docs or web links directly to me.

Thanks,

Jacob

Subject: Colowyo Pond Locations (C1981019)

Hi Hunter,

This email is a follow-up to my voice message I left you a moment ago.

I have been tasked with locating the various sedimentation ponds within the Colowyo Coal Pit. Specifically, the non-DWR ponds administered by the DRMS. When you have a moment, please call me to discuss these pond locations.

The best way to reach me is through my cell phone. My number is 303-868-4722.

Thanks,

Jacob
