Piceance Pit, Permit No. M-2001-077, Inspection Problem Abated -2

Dear Mr. Carpenter:

On November 30, 2023 the Division of Reclamation, Mining and Safety (Division) conducted an inspection of the above referenced site. Availability of Records was cited as a problem for needing to Request for Transfer of Mineral Permit and Succession of Operators per Rule 1.16(3). Corrective actions required you complete the transfer by the corrective action date.

On June 11, 2024 the Division approved SO-5. This satisfies the corrective action and it is considered abated.

If you require additional information, or have questions or concerns, please feel free to contact me.

Sincerely,

Amy Yeldell
Environmental Protection Specialist

EC: Travis Marshall, Senior EPS, DRMS
