**Re: Problem Citation Abated, State Listed Noxious Weeds,
Parsons Mine, Permit No. M-2009-082**

Ms. Mikulas:

On November 1, 2023, the Division of Reclamation, Mining and Safety (Division/DRMS) cited a problem for state listed noxious weeds present within the permit area at the Parsons Mine, Permit File No. M-2009-082. On July 1, 2024 the Division received an email showing the Russian Olive trees had been removed. Therefore the Division has abated the problem cited in the inspection report.

Please note there are two additional problem citations that have yet to be addressed for this site from the same inspection report.

If you need additional information or have any questions, please contact me by email at patrick.lennberg@state.co.us.

Sincerely,

Patrick Lennberg
Environmental Protection Specialist
