**RE: Eagle-Gypsum Mine, Permit No. M-1984-041, Technical Revision TR-12 Decision Due Date  
Extension Request Approval-1**

Dear Mr. Strack:

On July 12, 2024 the Division of Reclamation Mining and Safety (Division) received your request to extend the decision due date. Additional time is needed to respond to adequacy items. The Division is approving the extension request. The decision due date for TR-12 of M-1984-041 has been set for **August 15, 2024.**

Adequacy review #1 was regarding confidentiality. The operator erroneously submitted the document as confidential. At their request the confidential tag has been removed and this matter is resolved. Please submit responses to adequacy review #2 as soon as possible in order to allow the Division sufficient time for review. If any adequacy issues remain by the decision due date the Division may deny your request.

If you require additional information, or have questions or concerns, please feel free to contact me.

Sincerely,

**Amy Yeldell**  
Environmental Protection Specialist
