Hello Scott,

My name is Jared Ebert, I am with the Colorado Division of Reclamation, Mining and Safety (DRMS). Weld County contacted our office regarding a dredging operation occurring in Milton Reservoir. They indicated that you are with Farmer's Reservoir & Irrigation Co. and are aware of the project and are their point of contact. Weld County wanted to know if DRMS has required a permit for this operation and based on my review of the site's location, it does not appear we have issued a permit for this project. Based on the information I have, I am not sure if a permit from DRMS would be required. Would you have time for a phone call or virtual meeting, so I can get more details concerning the project? I am available tomorrow from between 9am and 1:30pm, and Friday between 9am and 11am, then from 1:30pm to 3pm.

Thanks in advance for your time.

Jared
