RE: North La Poudre Pit, Permit M-2000-144, Incomplete Application for Transfer of Mineral Permit and Succession of Operators, Revision SO-02

Dear Mr. Oestreich:

On July 23, 2024, the Division of Reclamation, Mining and Safety received the Application Form for Transfer of Mineral Permit and Succession of Operators from Bestway Concrete Company, Inc. to BURNCO Colorado, LLC, for the North La Poudre Pit, Permit M-2000-144. The following items are incomplete for the application to be processed:

Application Form

1. On Page 6, the first question was left blank. Please revise this page and include a list of all other reclamation permits held by the Prospective Successor, BURNCO, and submit the corrected Page 6 to the Division.
2. On Page 9, the company name is crossed off and re-entered on the notary portion. This isn't an acceptable signature. Please re-sign as the current permittee and have it notarized as Bestway Concrete Company. Please mail the corrected notarized signature page to the Division.

Please return the required documentation to the Division **before October 1, 2024**. All completed permit documents are required to be submitted for consideration of your Request for Transfer of Mineral Permit and Succession of Operators Application. An incomplete application may be denied after the 60-day submittal request, if requested documents or information are not received. In the event of any delay in your submittal or if you have any questions, please contact the Division.

Sincerely,

Nikie Gagnon
Environmental Protection Specialist
