

To whom it may concern,

I have begun reclamation of the property and intend to have the reclamation completed by 12/31/2024. The reclamation consists of removing the shed that was built on the property. The shed is bonded with bond number P2009023. I have included the bond document attached to this form.

I spoke with Nikie and I will contact her when the reclamation is complete so the inspection can be done.

Please let me know if further documentation is required.

Thanks,

Michael Joosten
