Looks like you missed some excitement this morning.. Might want to give them a call and see who they are referring to (Diana?).. I doubt there is anything we would need to respond to as far as spill reporting and mitigation but it might be a good excuse to visit the site and introduce yourself.. As always you probably want to discuss with your Senior..

Melaine and Eric:

Would you please notify Diana that the contractor putting on a new roof on the Platte Valley Correction Facility –  
one of the contractor's machines ran through the fence and tipped over into the north lake.  
No major weaks from the machine. The gentleman running the machine had some minor injuries, nothing major.  
The machine had a homemade wooden box that was empty - it got broken up; made of 2x4's and plywood.  
Other than the Weld County Sheriff Department, and the Greeley Fire Department that were here, is there anything  
else that we need to do as landowners.  
Incident happened Wednesday morning, August 21st, 2024 about 8 a.m.
