Re: Technical Revision TR143 Approval, Cresson Project, Permit No. M-1980-244

Dear Mr. Van Huyssteen:

On May 22, 2024, the Division of Reclamation, Mining and Safety approved the Technical Revision TR143 application submitted to the Division on April 25, 2024, addressing the following:

VLF2, Phase 3 Stage A.1 Recertification Record of Construction Report - CQA Report

The terms of the TR143 approved by the DRMS are hereby incorporated into Permit No. M-1980-244. All other conditions and requirements of Permit No. M-1980-244 remain in full force and effect. With this approval, the reconstruction of a portion of the VLF2, Phase 3 Stage A.1 was determined to be in compliance with the approved specifications. The Recertification is accepted by the DRMS pursuant to Rule 7.3.2 of the Mineral Rules and Regulations of The Colorado Mined Land Reclamation Board for Hard Rock, Metal, and Designated Mining Operations. CC&V may proceed with the approved use of this certified Environmental Protection Facility. With this approval, the Cease-and-Desist Order issued with Violation MV-2024-007 has been lifted. The Division has reviewed the change associated with TR143 for impacts to the financial warranty and has determined that this change does not require an increase to the current reclamation liability.

If you have any questions or need further information, please contact me at (303) 866-3567 x8132.

Sincerely,

Elliott R. Russell
Environmental Protection Specialist
