**Re: Bowie No. 1 Mine, Permit C-1981-38,  
Update of decision forms for SL-08, SL-09, and RN-08**

Dear Mr. Bear:

It has come to the attention of the Division that some of the decision forms that we have issued in recent years are incorrect. This includes forms for SL-08, SL-09, and RN-08. In particular, the permit acreages were incorrectly changed. This includes the total values, as well as values for Federal land and private land. Revised forms are enclosed with this letter.

The source of this error: I thought that with a Phase III bond release, these acres should be removed from the permit area. That is incorrect. BRL would need to submit a Permit Revision for these areas to be removed from the permit area.

The disturbed and affected areas were and should be removed in our system after approval of a Phase III release. This is reflected on the revised forms.

Please call or e-mail me with any questions related to this matter. There is no action required by BRL.

Thank you,

Robert D. Zuber, P.E.  
Environmental Protection Specialist
