**Re Keenesburg No. 2 Mine, M-2019-058**  
**Technical Review No. 3 (TR-3)**  
**Adequacy Review**

Dear Brady Reece:

On August 14, 2024, the Division received the request for a Technical Review (TR3) for the Keenesburg No. 2 Mine, File No. M-2019-058, proposing to make a minor change in mining direction. During the review of the material submitted, the Division determined that the following items need to be adequately addressed before TR3 can be considered for approval.

**Rule 6.2.1 (2) (a) (b) (c) (e) – Maps and Exhibits**

1. The map submitted did not include the name of the Applicant, evidence of preparation by a qualified person, the date of preparation, a map scale, appropriate legend, map title, and a north arrow in accordance with Rule 6.2.1 (2). Please provide a revised Map D-1 with the proposed phasing change.

This concludes the Division's adequacy review of TR3. Please be advised TR3 may be deemed inadequate, and the request may be denied on **September 13, 2024**, unless the adequacy review items are addressed to the satisfaction of the Division. If more time is needed to respond, the Division can grant an extension of the decision date following a request to do so by the Operator.

If you have any questions, please contact me by telephone at (720) 793-3041, or by email at [chris.girardi@state.co.us](mailto:chris.girardi@state.co.us).

Sincerely,

Chris M. Girardi  
Environmental Protection Specialist
