Re: Bowie Resources, LLC, Bowie No. 2 Mine
Technical Revision #66, Adequacy #1
Permit C-1981-038

Dear Mr. Zuber:

DRMS' letter dated September 3, 2024 transmitted its adequacy review for the referenced permit revision. On behalf of Bowie Resources, LLC, following are its responses to the DRMS' comments and concerns.

1. **DRMS :** This is still not clear on the revised map. It appears that green hatching is used to show features such as grass filters or other BMPs. Should the hatching illustrate the SAEs themselves? To the Division, SAEs are the drainage areas above the sediment control best management practices (BMPs), not just the BMPs. Please update the map to clearly show the SAE areas and include different symbols for grass filters and other BMPs.

BRL: Please see revised **Map-07**.

2. **DRMS:** No additional response required.
3. **DRMS:** No additional response required
4. **DRMS:** No additional response required
5. **DRMS:** No additional response required
6. **DRMS:** No additional response required
7. **DRMS:** No additional response required
8. **DRMS:** No additional response required

Please feel free to contact me if you have any questions.

Sincerely,

Tamme Bishop

Tamme Bishop, P.E.
