**RE: Permit No. M-1980-047, Colony Shale Oil Project, Inspection Problem-Corrective Action  
Extension Request Approval-4**

Dear Mr. Seymour:

On October 23, 2023 the Colorado Division of Reclamation Mining and Safety (Division) inspected the above-mentioned pit. Reclamation was cited as an inspection problem. Corrective actions required you to submit a Technical Revision (TR) to revise/update the Reclamation Plan to reflect existing and proposed activities. On September 9, 2024 the Division received an extension request to allow the Operator more time to prepare the Technical Revision and finalize field data collected. The extension request is approved. Required corrective action documentation is due by **October 7, 2024**.

If you require additional information, or have questions or concerns, please feel free to contact me.

Sincerely,

**Amy Yeldell**  
Environmental Protection Specialist
