Re: Resolution Letter, Complaint CT-2, Arnolds Pit No. 1, Permit No. M-2016-022

Dear Mr. Gingerich:

On August 28, 2024, the Division of Reclamation, Mining and Safety (Division/DRMS) received your complaint regarding the Arnolds Pit No. 1, permit file no. M-2016-022. On the day of your complaint the Division contacted Arnolds Custom Seeding (Operator) regarding your dust complaint. The Operator stated that they would get a water truck to the site to help mitigate dust at the site.

Additionally, since dust and air related items are not under the jurisdiction of DRMS, the Division forwarded your complaint to Weld County Code Enforcement and the Colorado Department of Public Health and the Environment the Air Pollution Control Division for any further follow-up.

At this time the Division considers your complaint resolved.

If you need additional information or have any questions, please contact me by email at patrick.lennberg@state.co.us.

Sincerely,

Patrick Lennberg
Environmental Protection Specialist
