**RE: King Coal Mine, Permit No. C-1981-035  
1<sup>st</sup> Quarter 2024 Discharge Monitoring Reports Review**

Dear Mr. Disckson,

The Colorado Division of Reclamation, Mining and Safety (the Division) has finished reviewing the 2024 1<sup>st</sup> Quarter Discharge Monitoring Reports (DMRs). The Division finds the reports to be in compliance with the following Rules:

- **Rule 4.05.13(2)(i)** – Samples are measured accurately and record the quality and quantity of the water discharged from the permit area.
- **Rule 4.05.13(2)(ii)** – There are three outfalls associated with the COG850001 permit; Outfall 001, Outfall 002 and Outfall 003. During the months of January, February and March Outfalls 001, 002 and 003 did not discharge. Therefore, no exceedances occurred.
- **Rule 4.05.13(2)(iii)** – Discharge Monitoring Reports are received on a quarterly basis and filed with the Division within 90 days of the sample collection. The 1<sup>st</sup> Quarter DMRs were submitted on April 24, 2024.

This concludes the Division's review of the 2024 1<sup>st</sup> Quarter Discharge Monitoring Reports. If you have any questions, please contact me at (720)-762-6156.

Sincerely,

Clayton Wein  
Environmental Protection Specialist
