Annual Fee, Report, and Map Due

Under the terms of your NOI or Permit and Colorado Statutes, you must submit an Annual Fee and Annual Report (including a map). You must pay the Annual Fee and submit an Annual Report each year until reclamation responsibility release is granted. The Annual Fee is not a renewal fee. The Fee and Report are for last year's exploration or mining and reclamation season, and must be paid even if your operation was inactive.

If you have requested reclamation responsibility release from the Division of Reclamation, Mining and Safety ("Division") but release has not been granted by the anniversary date listed below, the Annual Fee, Report and Map must be submitted. If the permit is released before the anniversary date, then by Statute, it is not necessary to pay an Annual Fee or submit an Annual Report for that year. The annual fee, report, and map are due on or before the Anniversary Date for the following operation:

Permit: M1999024

ePermit Number: 414309

Operation Name: San Acacio Gravel Pit

Anniversary Date: 10/04/24

Total Fee Due: \$791.00

As of January 1, 2018, all annual reports, maps and fees must be filed electronically. If you have not yet set up your ePermitting account, click on the link below to get started:

<https://drms.colorado.gov/information/epermitting>

If you have already established your ePermitting account, click on the link below to file your report, upload your map, and pay your fee online now.

Good morning,

I am wondering if we can solidify what, who and etc... as to whom these permits should truly fall under for responsibility. It appears that Trinidad oversaw this back in the day, we need to enter specific names into the database for processing. I know AP does their side for payment without question but wondering if in the near future who we can set up "org. chart" wise for these.

Thanks.

aw

Hi Lucas,

Hope you are feeling better, can you get me a new map for this submission please? ugh.

aw

When I was the Land Use Administrator it went through Planning, not sure when that got switched over to the Superintendent.

The Planning and Zoning did them before but Leroy decide that it would be best if he did it because Planning doesn't keep track of how many loads are taken out of the pits.
