RE: DRMS Annual Report - Carr Gravel Resource, Permit M-1988-048
Anniversary Date: September 22
Annual Fee: \$791 + online processing fees

Dear Division:

L.G. Everist, Inc. respectfully submits this cover letter and map to accompany the online submittal of the DRMS Annual Report for Carr Gravel Resource, DRMS Permit # M-1988-048. The annual fee is paid online with a credit card as part of the online report submittal.

L.G. Everist's Carr Gravel Resource permit area is 521 acres. The current permit boundary is shown on the attached **Map Exhibit C1 - Mining Plan Map**. The mine site permit area is south-east of the Town of Carr, located in parts of Section 1, Township 10 North, Range 67 West, 6th P.M., Weld County.

The Carr Gravel Resource is under Temporary Cessation (TC), which started July-2023. During the TC process, the DRMS reviewed and increased the financial warranty on the site, which was finalized in October-2023. Mining operations and product sales are temporarily ceased due to lack of market demand in the area. Prior to mining resuming, we will notify the DRMS and go through the required permitting process to cancel the TC and reactivate the permit. (Note: Under the existing permit, mining is done using loaders and/or excavators, portable equipment has been for any material processing.)

There is no mining or processing on site - as per the terms of Temporary Cessation. The mine, plant site, and storage areas are shown on the attached Mining Plan Map. The permit site is inspected regularly to ensure compliance with multiple permits and safety requirements. Areas on the site where the mining has already been completed have been partially reclaimed - the areas have been topsoiled, seeded, and grass is slowly growing. Weeds are controlled throughout the site with spraying and mowing as per weed management requirements.

If you have questions, please feel free to contact me by email (lmsaults@lgeverist.com), or telephone (office-303286-2247, mobile-303-514-2778).

Sincerely,

LMShults

Lynn Mayer Shults
Regulatory Manager
