Re: Correspondence Following an In-Person Discussion Regarding the Status of the Jansen Loadout Facility and the New Elk Mine, no. C-1981-012

Mr. Hunt,

Thank you for your correspondence. It was a pleasure meeting with you as well. We appreciate your diligence in the matter and your efforts to have the discussion regarding your inquiry into the status of the Jansen Loadout Facility. We also appreciate the information you have provided to us pertaining to your company's operational plans.

Please accept this letter on behalf of the Division of Reclamation, Mining and Safety (DRMS/Division) as a written confirmation that the Division does not have an issue with the proposed activities outlined in your letter, to be conducted by Natural Pozzolan Resources, LLC (NPR), at the Jansen Loadout Facility. However, please be aware that there may be other permits or licenses that NPR will need to obtain from other government agencies to conduct these operations.

If you have any questions, please contact me via email at amber.gibson@state.co.us or by phone at (720) 836-0967.

Sincerely,

Amber M. Gibson
Environmental Protection Specialist
