RE: **Pete Lien & Sons, Inc.; Mining Permit No. M-1977-304, Annual Report – Supplemental Information.**

As part of the Annual Report process for the Rex Quarry, Permit No. M-1977-30, we used updated GIS data and shapes.

This review revealed that we had been under-reporting the number of acres currently affected because the accounting of acres did not match what the map was showing. Total disturbed acreage now totals 110.5 acres.

Previous maps showed an area that had been released. Review of records show that SR-1 was actually withdrawn in 2007. Therefore, that area is now shown as Reclaimed, not Reclamation Released as shown on the 2022-2023 map.

If there are any questions regarding these changes, please feel free to contact me at (605) 939-2719 or by email at mgolliher@petelien.com.

Respectfully submitted,

Michael Golliher
Technical Director of Mine Planning
