Ms. Nikie Gagnon:

As requested in the Adequacy Review 1 Letter, dated September 26, 2024, ASCI is providing this response to affirm:

- 1) The proposed 1.25-acre area to be mined as depicted on Exhibit C-2 is entirely within the affected area boundary identified in AM-02; and
- 2) The excavated area within 400 feet of the South Platte River will be backfilled to pre-mining elevations within one (1) year of excavation.

Please let me know if you have any questions.

Sincerely,

Greg Geras
