**Re: Additional Information Required,
Second (2nd) Quarter 2024 Groundwater and Surface Water Monitoring Report;
Cash & Who Do Mines and Gold Hill Mill, Permit Nos. M-1983-141 and M-1994-117**

Dear Mr. Langenfeld:

On September 18, 2024, the Division of Reclamation, Mining and Safety (Division/DRMS) received the 2nd Quarter 2024 groundwater and surface water monitoring report for the Gold Hill Mill and Cash & Who Do Mines. After review of the submission the Division has additional items that need to be addressed or clarified.

1. Please update the following "Surface locations were frozen, and as such were unsamplable" to reflect surface water samples were collected and the locations were not frozen.
2. Please update the analytical summary table. It appears the conductivity measurements were duplicated in the Arsenic results column.

Please respond within 30 days of the date on this letter. **The due date is November 1, 2024.** The Division reserves the right to further supplement this document with additional items and details as necessary.

If you need additional information or have any questions, please contact me by email at patrick.lennberg@state.co.us.

Sincerely,

Patrick Lennberg
Environmental Protection Specialist
