**Re: Additional Information Required No. 2,
Second (2nd) Quarter 2024 Groundwater and Surface Water Monitoring Report;
Cash & Who Do Mines and Gold Hill Mill, Permit Nos. M-1983-141 and M-1994-117**

Dear Mr. Langenfeld:

On October 8, 2024, the Division of Reclamation, Mining and Safety (Division/DRMS) received your responses to the Division's letter, dated October 2, 2024, requiring additional information related to the 2nd Quarter 2024 groundwater and surface water monitoring report for the Gold Hill Mill and Cash & Who Do Mines. After review of the submission the Division has additional items that need to be addressed or clarified

1. In review of the submitted materials the sample date listed in the analytical summary table is 6/20/2024. A review of the Chain of Custody at the end of the submittal lists the sample date as 7/15/2024. Please clarify this discrepancy and update the tables as needed with correct information.
2. If the samples were collected in July and not June, then that would mean that no second quarter 2024 samples were collected for either site. Did the Operator collect samples in August or September 2024?

Please respond within 30 days of the date on this letter. **The due date is November 9, 2024.** The Division reserves the right to further supplement this document with additional items and details as necessary.

If you need additional information or have any questions, please contact me by email at patrick.lennberg@state.co.us.

Sincerely,

Patrick Lennberg
Environmental Protection Specialist
